

HOW TO USE:

1. Include necessary JS files.

```
<script type="text/javascript" src="http://code.jquery.com/jquery-1.4.2.min.js"></script>
```

```
<script type="text/javascript" src= PATH-TO-EASING-PLUGIN-JS-FILE ></script>
```

```
<script type="text/javascript" src=PATH-TO-JCHASING-JS-FILE></script>
```

2. Add jChasing CSS file.

```
<link rel="stylesheet" href=PATH-TO- JCHASING -CSS-FILE type="text/css" media="screen">
```

3. Create a <div> element with identification (id/class).

```
<div id="jchasing">
  <ul>
    <li class="current"><a href="#"><span>Home</span></a></li>
    <li><a href="#"><span>Portfolio</span></a></li>
    <li><a href="#"><span>About Us</span></a></li>
    <li><a href="#"><span>Contact Us</span></a></li>
  </ul>
</div>
```

4. Fire jChasing using jQuery selector.

```
$(document).ready(function() {

  /* This is basic - default settings */

  $(document).ready(function() {

    $("#jchasing").jchasing();

  });

});
```

HTML FILE SPECIFICATION:

The basic html format is showing below:

```
<div id="jchasing">
    <ul>
        <li class="current"><a href="#"><span>Home</span></a></li>
        <li><a href="#"><span>Portfolio</span></a></li>
        <li><a href="#"><span>About Us</span></a></li>
        <li><a href="#"><span>Contact Us</span></a></li>
    </ul>
</div>
```

Please note if you want to make a current selected menu item, use class="current". Otherwise it will set the first menu item as current by default.
